Muhammad Fahad

Full Stack Developer | Django & AWS | Rawalpindi, Pakistan
rajafahad03425@gmail.com +92-345-5222870 mfahad.live

PROFESSIONAL SUMMARY

Motivated and detail-oriented Full Stack Developer currently pursuing a BSCS (6th Semester, CGPA 3.47) at Air University, Rawalpindi. Experienced in building dynamic, scalable web applications with Django and deploying them on AWS. Strong foundation in back-end development, database design, and responsive front-end interfaces. Eager to contribute to a professional environment through an internship and gain hands-on industry experience.

EDUCATION

Bachelor of Science in Computer Science (BSCS) | Air University | Islamabad | *2023 – Present*

Current Semester: 6th Semester **CGPA:** 3.47 / 4.00

Associate Degree in Computer Science (ADCS) | Air University | Islamabad | *Completed Jan. 2025*

TECHNICAL SKILLS

Languages	Python, JavaScript, HTML5, CSS3, SQL
Frameworks	Django, Django REST Framework
Front-End	Jinja2, Bootstrap, Tailwind, Responsive Design
Cloud / DevOps	AWS (EC2, S3, RDS), CI/CD Pipelines
Databases	PostgreSQL, MySQL, SQLite
Tools	Git, GitHub, VS Code, Linux
Soft Skills	Problem-solving, Team collaboration, Detail-oriented

PROJECTS

Phone Marketplace | Final Year Project | | *2024*

A full-featured e-commerce marketplace connecting shopkeepers and buyers, built with Django. Designed to handle real-world transactions with scalability and security in mind.

- Role-Based Access Control: Separate modules for Admin, Verified Sellers, and Buyers ensuring secure, appropriate access at every level.
- Seller Verification System: Only authenticated and admin-approved shopkeepers can list products, maintaining platform integrity.
- Product Reservation: Users can reserve items online and collect them in-store, bridging online and offline retail.
- Advanced Search & Filtering: Multi-criteria filtering to help buyers quickly find relevant products.
- Admin Dashboard: Comprehensive panel for managing users, listings, orders, and transactions.
-

Personal Portfolio Website

Designed and deployed a responsive personal portfolio website to showcase projects, skills, and professional presence.

- Built with modern HTML5, CSS3, and JavaScript with a clean, mobile-first layout.
- Hosted and managed independently, demonstrating end-to-end deployment skills.

Live Site: https://mfahad.live/

CLOUD & DEVOPS EXPERIENCE

AWS Deployment — Django Applications *6 months experience*

- Deployed and managed Django applications on AWS using EC2 (compute), S3 (static/media files), RDS (managed database).
- Configured CI/CD pipelines to automate testing and deployment workflows.
- Optimized cloud infrastructure for performance, cost-efficiency, and reliability.
- Gained practical experience with Linux server administration, environment configuration, and security groups.
